

Why Choose Us

We focus on the overall development of students, including academic, personal, and professional growth.

Our course are designed to help students not only succeed academically but also excel in their future careers.

We use tried-and-tested methodologies that have consistently delivered excellent results for our students.

Many of our students have achieved significant success, thanks to the solid foundation they built with our support.

“Transforming Idea into Innovation”

About Company

We empower students through project training, internships, and online courses. We offer career guidance and workshops to enhance skills and knowledge. We mentored & trained over 100 students, transforming ideas into innovation.

Our Vision

Mr. Innovator envisions students as innovators and leaders, bridging the gap between theory and practice through project training, internships, online courses, and workshops. Committed to mentorship, Mukesh Muthuram guides students to unlock their potential and transform ideas into impactful innovations. We aim to foster educational excellence and innovation, preparing skilled professionals for future challenges.

Take your
career to
the next
level...

Tech & Workshop

Deliver education that includes both theoretical insights and practical tool applications. An integrated tech lab with a makerspace empowers students to share ideas, utilize tools, and engage in design thinking to create solutions for real-world challenges.

- Aeromodelling
- Robotics
- IOT- Internet of things
- UAV and Fixed wing
- 3D modeling & printing
